PROFESSIONAL SUMMARY

Detail-oriented Information Systems undergraduate (GPA 3.86/4.00) specializing in Enterprise Application Development at Universitas Pembangunan Nasional Veteran Jakarta. Experienced in designing and building full-stack web applications, enterprise system architecture, and data-driven solutions. Combines strong technical skills in software development with proven cross-functional leadership as Vice Chairperson of the Faculty of Computer Science Student Executive Board. Adept at translating complex business requirements into scalable digital systems. Actively seeking internship opportunities in Software Engineering, System Analysis, IT Project Management, UI/UX Design, and Data Analytics.

EDUCATION

Universitas Pembangunan Nasional "Veteran" Jakarta (GPA 3.86/4.00) Aug 2024 – Present
Bachelor of Information Systems (S1 Sistem Informasi)

SMK Negeri 4 Kota Tangerang Selatan (Academic Average: 94.2 / 100) 2021 - 2024
Multimedia Program

- Head of Student Council (OSIS); Best Non-Academic Student 2023/2024

TECHNICAL SKILLS

- Languages & Frameworks:** PHP (CodeIgniter 3), JavaScript (ES6+), HTML5, CSS3, SQL, Kotlin (Basic), Java (Basic)
- Database & Data:** MySQL, Spreadsheet Analytics, IBM Granite AI (Data Classification)
- Design & Visualization:** Figma, Adobe Illustrator, Adobe Photoshop, CorelDraw, Canva, Blender (3D Modeling & Rendering)
- Networking & Architecture:** Cisco Packet Tracer, GNS3, Enterprise Architecture Design
- Developer Tools:** Git, GitHub, Android Studio, VS Code
- Concepts & Methodologies:** MVC Architecture, RBAC, RESTful API, OOP, Database Transactions, SDLC, UI/UX Principles, Agile Project Management

PROJECTS

Restaurant Point of Sale (POS) System

Tech Stack: PHP (CodeIgniter 3), MySQL, JavaScript, REST API, bcrypt, MVC Architecture

- Developed a full-stack restaurant POS and self-service ordering system to streamline end-to-end operations and improve efficiency
- Architected a multi-role RBAC (Admin, Cashier, Guest) secured by session-based authentication and bcrypt password hashing
- Built RESTful JSON APIs for real-time checkout processing, dynamic table management, and full product CRUD operations
- Implemented MySQL transactions to guarantee strict data consistency across simultaneous order creation and automatic stock deductions
- Engineered a reporting dashboard delivering daily, weekly, and monthly revenue analytics for management decision-making

Smart Pet Collar — "LivTrack" IoT Product Design

Blender 3D, Modeling & Rendering, Product Design, IoT Concept

- Conceptualized and produced photorealistic 3D renders of a smart IoT collar device ("LivTrack") for real-time pet health and location monitoring
- Created 6 multi-angle product renders with professional material, lighting, and texturing for hardware prototype presentation

Gojek Exhibition Booth — 3D Spatial Visualization

Blender, Spatial Design, Brand Implementation, 3D Rendering

- Designed and rendered a full-scale 3D exhibition booth environment for the Gojek brand, integrating official visual identity into spatial and lighting design
- Delivered front and back view renders suitable for event planning and stakeholder presentation

Android Mobile Application Development

Kotlin, Android Studio, Java, Object-Oriented Programming

- Developed and structured a dynamic Android-based application implementing OOP principles for scalable and maintainable architecture

Enterprise Network Architecture Simulation

Cisco Packet Tracer, GNS3, Network Security, IT Infrastructure

- Configured, simulated, and audited secure multi-node network topologies applying network security protocols and troubleshooting methodologies

PROFESSIONAL EXPERIENCE

Data Administration & Lead Generation Specialist

Feb 2025 – Apr 2025

Vriddhi Agency (Remote)

- Extracted, processed, and validated 4,250+ high-quality B2B business leads to accelerate client acquisition pipeline using structured data management workflows
- Executed digital market research and competitive analysis to optimize web development service offerings based on real-time industry data trends
- Managed tracking databases and documentation using spreadsheet analytics tools

Digital Asset Management Intern

Mar 2023 – Jul 2023

JasaFotoJakarta.com (PT. Elpix Global Vision), South Tangerang City, Banten

- Managed end-to-end digital asset logistics for high-volume commercial visual productions
- Collaborated with corporate clients to gather creative requirements and translate them into delivered multimedia project outputs

ORGANIZATION & LEADERSHIP

Vice Chairperson

Jan 2026 – Present

BEM FIK UPNVJ (Student Executive Board of Computer Science Faculty)

- Co-lead strategic planning and daily operations, overseeing dozens of staff across multiple departments
- Spearheaded the organizational recruitment process, interviewing and allocating personnel across seven distinct departments to optimize cabinet structure
- Evaluate organizational performance metrics and streamline workflows for efficient execution of technical and non-technical student programs
- Serve as key decision-maker in institutional matters representing 1,940+ students

Project Officer

Jan 2026 – Present

FIK FAIR 2026 "IGNITE" – International Campus Tech & Arts Festival

- Leading end-to-end project lifecycle for a large-scale multi-day festival including cross-committee coordination, budgeting, and milestone tracking
- Manage stakeholder communication across internal committees and external partners to ensure seamless project delivery

Coordinator of Publication & Documentation

Aug 2024

New Student Orientation (PKKMB) FIK UPNVJ

- Led cross-functional team of designers, photographers, and videographers for new student orientation publication across all digital platforms
- Maintained brand consistency and ensured accurate information delivery to 550+ incoming students and the public

Staff of Information & Media Department

Jan 2025 – Dec 2025

BEM FIK UPNVJ (Student Executive Board of Computer Science Faculty)

- Designed and executed visual content campaigns maintaining consistent brand identity across all faculty digital platforms and social media channels
- Produced and archived event documentation (photo, video, aftermovie) as official faculty institutional records

Head of Student Council (Ketua OSIS)

2022 – 2024

SMKN 4 Kota Tangerang Selatan

- Led a 30+ member student government, overseeing school-wide programs and inter-organizational collaborations
- Represented student interests to school administration and external stakeholders

CERTIFICATIONS

-
- Information Technology Specialist: Data Analytics | Certiport (Active)
 - Data Classification and Summarization Using IBM Granite | IBM | Aug 2025
 - Design Graphics and Video Documentation (Kompeten) | PT. Aset Digital Semesta | May 2024 – May 2027

ACHIEVEMENTS

-
- Most Liked & Most Saved – Short Film Competition, GV & Indosat Ooredoo Hutchison (IOH), 2022
 - Best Non-Academic Student – SMKN 4 Kota Tangerang Selatan, Graduation 2023/2024
